Two Fingers to Touch-Typing Conversion Course

for experienced keyboard users

IANSYST

Designed by Ian Litterick
with programming by Raj Seegoolam

THE EASY WAY TO FAST AND ACCURATE TYPING

Make those keys sing!

Fast and accurate typing is an essential skill in the computer age. Iansyst's range of sophisticated typing training programs are designed specially for busy and serious computer users.

The courses are packed with useful tips about typing and using computers; they contain plenty of carefully designed, interesting practice material.

And they are enjoyable, too!

◇ **Iankey Typing Crash Course** takes the new computer user around the whole keyboard as fast as possible, teaching the basics of touch-typing in as little as four hours.

Its unique *fast-track* approach lets you put your computer to use right from the start.

Plenty of interesting practice sessions then help you reach speeds of 40 words a minute and more.

"very robust ... very easy to use and altogether a sound and thoughtfully constructed package"

MicroDecision

"excellent", "very pleased with it", "extremely good", "Congratulations ... no hesitation in recommending it to our clients."

various customers

Apricot Plc and *American Training International* have also selected Iankey to publish.

◇ **Iankey Two Fingers to Touch-Typing Conversion Course** gives new touch-typing skills to experienced two-finger typists.

In this unique course you build on your own knowledge and skill. You do not have to start again from scratch and your typing speed hardly drops whilst you are learning.

In four intensive sessions of as little as one hour each, you quickly upgrade your computer's slowest part — you!
